

Project 2017: root bridge

Making art like nature does. Translate to my own imagery

sketch and wax modeling - object roots in bronze cire perdue.

Motivation

I want to do all the work with my own hands but need your craftsmanship to create a stable construction and an artwork with no cracks after pouring the bronze. Searching the possibilities and borders of the technique and material

Experiment how to "fill" with blown or casted glass or other material, perhaps in a subsequent AIR
